General index to volume 138

Aberfeldy, mineralization in Dalradian, 218, 219
Aberystwyth Grits, bedding-parallel fabric, 479–80
Adana-Iskenderum Basin, 722 map, 725
Aegean plate, 730–1
African (& Eurasian–Arabian) continental margin, 719–33
AGER, D. V., major marine cycles in the Mesozoic, 159–66
AGUIRRE, L., LEVI, B. & OFFLER, R., low-grade burial metamorphism in the Andes [*abs*], 633
——, *see also* LEVI, B.
ALA, M., discussion [STONELEY], 526
ALABASTER, T. & PEARCE, J. A., geological setting of massive sulphide deposits in the Oman ophiolitic complex [*abs*], 218
alaskites, Namibia, 218
Alderley Edge, 219–20
ALEXANDERSSON, E. T., the Skagerrak carbonates—an antithesis to the Bahamas [*abs*], 501
ALLEN, J. R. L., receives LYELL MEDAL, 502–3
—— & WILLIAMS, B. P. J., sedimentology and stratigraphy of the Townsend Tuff Bed (Lower Old Red Sandstone) in South Wales and the Welsh Borders, 15–29 figs
ALLEN, N. H., the distribution, sedimentology and economic potential of high-carbonate deposits on the Scottish continental shelf [*abs*], 501
ALLEN, P., pursuit of Wealden models [Presidential address], 375–405
——, addresses to recipients of medals & funds, 502 *et sqq* 642
ALLEN, P. A., Devonian lake margin environments and processes, SE Shetland, Scotland, 1–14 figs
——, discussion [LEEDER 1980], 753
amphibole, detrital, Turkish coast, 83–92; glaucophanic in Monian shear zone, 139–43
amphibolites, anomalous, 635
Anaximander Mts, 722 map, 724, 727–8
Andes, Cu mineralization, 220; (Central), dacite-rhyolite volcanism, 496; low-grade burial metamorphism, 633; (Chile), Mesozoic & Palaeogene spreading-subsidence, 75–81
Anglesey, *see* Parys Mountain
Antalya Basin, 722 map, 725–6
Arabian–Eurasian continental margin, 719–33
ARMSTRONG, G., receives WILLIAM SMITH MEDAL, 504–6
Asia (mainland SE), Phanerozoic plate boundaries, 109–22
ATHERTON, M. P., horizontal and vertical zoning in the Peruvian Coastal Batholith, 343–50
Atlantic & Pacific spreading axes, 695–712; *see also* Mid-Atlantic Ridge *etc*
AULD, H., *see* SIMPSON, P. R.
autocorrelation, 177–81
axes, spreading, magma chambers beneath, 279–80

BADHAM, J. P. N., a comparison of the Sn and Cu mineralization in acid igneous rocks—where are the tin exhalites? [*abs*], 212
Bail Hill, 428, 434
BAIRD, A. W., *see* POWELL, D.
BAKER, J. R., on the applications of G-EXEC in the analysis of discontinuous data [*abs*], 495
BALDWIN, J. A. & PEARCE, J. A., geochemical discrimination between barren and mineralized intrusions in the El Salvador porphyry copper district, Chile [*abs*], 498
Ballachulish Slates, bedding-parallel fabric, 480 fig., 481–2
Baringo, Lake, area, geophysical surveys, 93–101
BARNICOAT, A. C. & O'HARA, M. J., origin and interpretation of garnet-clinopyroxene intergrowth from Scourie [*abs*], 637
barium-zinc mineralization, Aberfeldy, 218, 219
basalts, mid-ocean ridges, lithology & chemistry, 696–703; fractionation, 704–5
batholith, evolution of granitoid, 416–8; *see also* Coastal Batholith
BAXTER, G. G. & HORDER, M. F., [introduction to papers on] databanks and databases in geology, 573–4
BEACH, A., feldspar-mica reaction as a pressure solution mechanism in deformed greywacke [*abs*], 633
BECKINSALE, R. D., THORPE, R. S., PANKHURST, R. J. & EVANS, J. A., Rb-Sr whole-rock isochron evidence for the age of the Malvern Hills complex, 69–73 figs
bedding-parallel fabrics, primary, 475–83
BELL, A. M., strain factorizations from lapilli tuff, English Lake District, 463–74
benthic faunas, early Palaeozoic, 173–4
BENTON, M. J. & GRAY, D. I., Lower Silurian distal shelf storm-induced turbidites in the Welsh Borders: sediments, tool marks and trace fossils, 675–94
BEVINS, R. E., ROBINSON, D., ROWBOTHAM, G. & DUNKLEY, P. N., low-grade metamorphism in the Welsh Caledonides [*abs*], 634
BIE, S. W. & GABERT, G., review of North American geological information systems, 629–30
BISTE, M., geochemistry of S Sardinian granites compared to their tin potential [*abs*], 212
black shales, early Palaeozoic, 168, fig. 169–71
Blackstones igneous complex, 638

BLAKE, S., eruptions from zoned magma chambers, 281–7
BLOXAM, T. W., *see* LOWMAN, R. D. W.
